

St. Bonaventure High School Permission To View Student Information Online

St. Bonaventure has provided a website to allow parents/students the ability to view student information online. The information includes assignments, grades, attendance, grade history, etc. The logon page is located on the school's main website, www.saintbonaventure.com, on the home page. By filling out the form below, the parents and students will receive, through e-mail if possible, a username and a password.

Filling out the form completely and legibly will reduce the time necessary to process the form. After completing the form, return it to St. Bonaventure. Questions regarding the account or user problems should be directed to the Technology Department. Grading problems should be directed to the individual teacher.

I agree to the terms listed above and would like to be provided with a username and password to view my student's information.
